GLOBAL WATERS

Stories Exploring Water Challenges and Solutions

March 2021 – World Water Day

Celebrate World Water Day 2021: Confronting Climate Uncertainty Head on in the Philippines

The effects of climate change have been nothing short of devastating for the Philippines. This World Water Day, learn how USAID's Safe Water Project is strengthening the island nation's resilience through the provision of sustainable water resource management technologies, improved access to reliable water, and more accountable and financially disciplined water sector governance. [Read more.](#)

Building Resilience into a River Basin

The Resilient Waters Program's efforts to strengthen institutional connections, build up its partnerships, and address the shocks and stresses of climate change will help mitigate the pressures on the Limpopo River Basin for years to come. [Read more.](#)

Going Beyond Taps and Toilets in the Sahel

Water insecurity and pervasive shocks and stresses are critical challenges in Burkina Faso and Niger. USAID's TerresEauVie activity is tackling both through a combination of emergency humanitarian aid and long-term development assistance. [Read more.](#)

USAID Water Security, Sanitation, and Hygiene Highlights from 2020

Have a look at the “Year in Review” to see the progress USAID's Center for Water Security, Sanitation, and Hygiene made during 2020—a year of unprecedented challenges—and see how the Agency is building bridges to a more water-secure, healthier, and prosperous future. [Read more.](#)

Protecting and Empowering Women and Girls for Safer Access to Water

Women and girls face unique challenges that accompany a lack of access to safe drinking water, sanitation, and hygiene (WASH). USAID is ensuring its WASH investments also prevent and respond to these unique forms of gender-based violence. [Read more.](#)

What's New on Globalwaters.org

Explore the updated [WASH and COVID-19 Resources](#) and new [Collaborating, Learning, and Adapting for WASH](#) pages. Learn about [Diversifying Partnerships in WASH](#). Read the [Water for the World Research Agenda](#) or the [WASH Governance](#) technical brief.
